

Wong, Jerng Foong (Daniel)

Location: Selangor, Malaysia

Email: wongjerngfoong@gmail.com | **LinkedIn:** linkedin.com/in/wongjerngfoong

Focus: Logistics Billings, Regional Network Planning, and Geospatial Analysis

Professional Summary

Experienced professional with a 15-year background in logistics billing, regional network planning, and functional consultancy. Proven experience within the Lazada (Alibaba Group) ecosystem in managing optimization projects through data-driven analysis and tool implementation. Technical background includes geospatial analysis (QGIS, Leaflet.js), advanced SQL, and simulation modeling, with a foundational career in ERP systems and financial auditing.

Core Competencies

- **Data & Optimization:** SQL, R, Excel Power Query, Vensim (Simulation), Gurobi/COPT (Solvers), and Alibaba internal BI tools (FBI).
 - **Geospatial & Visualization:** QGIS (Spatial Analysis), Leaflet.js (Web-based Heatmaps), and Network Visibility Dashboards.
 - **Logistics & Planning:** Hub and Station Location Planning, Linehaul (LH) Optimization and Network Expansion analysis.
 - **Systems & ERP:** Microsoft Dynamics AX/NAV.
 - **Audit & Finance:** IT Audit (CISA), Financial Accounting, and GST Implementation.
-

Professional Experience

Lazada (Alibaba Group) | Oct 2020 – Mar 2026

Regional Network Planning / Logistics General | Apr 2023 – Mar 2026

- **Linehaul Optimization:** Managed end-to-end LH optimization projects across Philippines (PH) and Indonesia (ID), including data preparation, script execution, and troubleshooting technical bugs to generate optimized routing solutions.
- **Optimization Tool Management:** Acted as the primary owner for location-based optimization tools (HELIOS, EOS), managing requirement gathering, verification testing, and implementation support.
- **Project Management (PMO):** Managed the Starwheel product migration to LOP, coordinating stakeholders for UAT and managing project risks.
- **Geospatial Analysis & Visualization:** Developed dynamic leaflet-based heatmaps and maps to present project outcomes for PH SSC Abandonment and ID Phoenix projects; improved overall network GIS capabilities.
- **Network Optimization:** Led LHS (Last House) Optimization projects for Indonesia and Philippines, developing tracking dashboards for monitoring and performance evaluation.
- **Network Expansion:** Provided CPP cost and route optimization calculations for network expansion projects in the Philippines.

- **Training & Support:** Conducted user training for Starwheel LHS tools and aligned business processes with optimization models.

Fulfilment and Infrastructure | *Oct 2021 – Mar 2023*

- **Network Visibility:** Used simulations to identify potential backlogs and provided visibility into network scenarios during high-volume campaign periods.
- **Infrastructure Optimization:** Contributed to analysis for increasing hub coverage and optimizing the placement of DOP stations.
- **Address Management:** Managed the “Address 2.0” Level 5 addressing project to provide data for the LNP system.

Logistics Operations - Fleet Management | *Oct 2020 – Sep 2021*

- **Workflow Automation:** Automated Fleet Payment processing using Excel Power Query, maintaining payment SLAs and a 98% accuracy rate.
- **Operations Support:** Managed operational issues and prepared financial data reports for internal and external stakeholders.

Careware Systems Sdn Bhd | *Aug 2017 – Aug 2018*

Functional Consultant

- Mapped customer process flows against standard systems to identify gaps and gathered system requirements.
- Prepared business flow documentation and conducted training and UAT.

Tectura | *Oct 2014 – Dec 2016*

Support Consultant / Functional Consultant

- Analyzed support tickets to determine root causes and led GST solution implementation for four projects.

9 Dots Consulting | *Feb 2014 – July 2014*

Functional Consultant

- Functional consultancy for Microsoft Dynamics AX implementations.

Advance Infosys Sdn Bhd | *Feb 2012 – Sept 2013*

Business Analyst

- ERP implementation lifecycle support for the remittance and retail sectors.

Deloitte | *Aug 2009 – July 2010*

Business Analyst

- Performed risk-based IT audits on SAP and UNIX-based systems.

Earlier Experience (2005 - 2007)

- **Software Support** for ACCPAC ERP and UBS accounting software at Careware Systems and Ideal Perfect.
-

Education

- **Master of Decision Science:** Universiti Utara Malaysia | 2018 – 2022
 - **Bachelor of Accountancy:** Universiti Tenaga Nasional | 1999 – 2004
-

Certifications & Languages

- **Certifications:** CISA (Certified Information Systems Auditor), MS Dynamics AX 2012 R3 Financials, Python Data Structures.
- **Languages:** English (Native/Bilingual), Bahasa Malaysia (Native/Bilingual), Cantonese (Limited Working).
